EDUCATION

Bachelor of Science in Computer Science

Hyderabad Institute for Technology and Management Sciences (HITMS) | Expected 2029

TECHNICAL SKILLS

Programming Languages & Frameworks: Python, Java, Next.js, HTML, CSS, Tailwind CSS

Libraries & Runtimes: Streamlit, Chainlit (Python), JavaFX (Java)

Tools & Platforms: Git, GitHub, Vercel, AI CLI Tools, Spec-Kit Plus, Docusaurus

Concepts: OOP, Responsive Design, Cross-Browser Compatibility, Built-in SEO, Chatbot Agents, Spec-Driven Development

EXPERIENCE

Frontend Developer Intern | InnovaTech | Feb 2025 – Apr 2025

- Designed and built business-facing webpages remotely, working independently to meet project requirements on time.
- Turned design briefs into responsive, cross-browser-compatible interfaces that worked cleanly on all screen sizes.

PROJECTS

Personal Developer Portfolio — Tech: Next.js 16, TypeScript, Tailwind CSS v4, Vercel

Designed and built a production-grade personal portfolio from scratch, serving as a central hub for professional identity and showcasing expertise in both Frontend Engineering and Agentic AI.

Live: <https://muhammad---shariq.vercel.app/>

AI Employee Automation Tool — Tech: Python, Google Workspace APIs, LinkedIn API, LLMs

Built an AI-powered automation agent that generates contextual LinkedIn posts and drafts targeted Gmail messages based on custom inputs.

GitHub: https://github.com/shariq001/AI_Employee_Silver.git

AI-Native Interactive Book — Tech: Spec-Kit Plus, Docusaurus, AI CLI Tools

Engineered a fully AI-generated educational platform using Spec-Driven Development (SDD), where the AI autonomously handled planning, writing, and structuring all content from start to finish without any manual intervention.
